## WHO WE ARE

We help manufacturers and facility operators in Saudi Arabia run stable, efficient operations. Our work combines German engineering method with 20+ years of hands-on experience in maintenance, production and facility management. Founder and lead consultant: Martin Lissner, B.Eng. Mechanical Engineering, Six Sigma Black Belt.

## CORE CAPABILITIES

| Capability | What it covers |
|---|---|
| Operations Assessment | Gemba walks, value stream mapping, OEE and loss baseline, prioritised roadmap |
| Six Sigma Improvement | DMAIC projects: MSA, SPC, root cause statistics, DOE, control plans |
| Maintenance & Reliability | Criticality ranking, preventive and predictive maintenance, RCM, KPI (availability, MTBF, MTTR), SAP PM |
| Lean Shopfloor | 5S, standard work, SMED, Kanban, shopfloor management and daily review routines |
| Training & Kaizen | Lean basics, 8D, A3, 5-Why, Six Sigma tools for supervisors and engineers; Kaizen events |

## INDUSTRIES

Automotive and discrete manufacturing · Chemical and process industry · Facility management and industrial services · Technical training centres

## TRACK RECORD OF THE LEAD CONSULTANT

- BMW Group Plant Leipzig: below 2% unplanned downtime on 200+ production assets, 15% lower maintenance cost.
- Chemical manufacturing: 99.2% system uptime, 18% less downtime through predictive maintenance.
- Technical training facility: built from zero to 150+ apprentices a year, 94% certification rate, EUR 340K annual savings.
- Facility services Germany: 12% operating cost reduction through Lean and value stream mapping.
- Facility management Saudi Arabia: 98% equipment availability across 4+ client sites, zero safety incidents.

## CREDENTIALS

- B.Eng. Mechanical Engineering, Anhalt University of Applied Sciences (Germany)
- Six Sigma Black Belt (ISO 13053 / 18404), LEAN Expert, REFA Process Analysis
- GPM Basic Certificate in Project Management (IPMA), Professional Scrum Master I
- Qualification verified by the Saudi Ministry of Human Resources (Professional Accreditation, 2025)

## HOW WE WORK

Fixed-scope packages with a defined deliverable. A free 60-minute scoping call leads to a written proposal with scope, duration and fee. Every project ends with measured results against the baseline and a hand-over to your team.
